## Chronic Constipation.

It is by no means an easy matter to cure this disease, but it can be done in most instances by taking Chamberlain's Tablets and complying with the plain printed directions that accompany each package.—adv.

## Publisher Is Stricken With an Attack of Heart.

## Veteran of Two Wars Was Born on Farm in the Buckeye State.

Los Angeles, Cal.—General Harrison Gray Otis, president and general manager of the Los Angeles Times, died at the home of his son-in-law, Harry Chandler.

Otis was eating breakfast in bed when he was stricken with an attack of the heart. His food was being served by a maid. The general turned to her and said:

"Take the food away. I am gone."

Otis, a veteran of two wars, was born on a Washington county, Ohio, farm, Feb. 10, 1837.

In 1861, at 24, he enlisted in the Twelfth Ohio volunteers. He was twice wounded and received seven promotions.

With the outbreak of the Spanish-American war, in 1898, Maj. Otis, at the age of 61, volunteered his services to President McKinley and was made a brigadier general of volunteers.

Quite early in his career as editor and publisher of the Times, Otis came into conflict with organized labor and thereafter until the day of his death he waged an unrelenting warfare for what he termed industrial freedom.

On Oct. 10, 1910, his building and printing plant was dynamited and 20 of his workmen killed. The arrests and trials which followed were matters of nation-wide interest.

## U. S. ISSUES AN ORDER TO GET ALL SLACKERS

Washington, D. C.—Prompt apprehension of "thousands of men who escaped detection and prosecution for failure to register" for selective service was ordered by the department of justice. Formal notices were sent to all United States attorneys.

"From reports received July 16," said Attorney General Gregory, "it appears that thousands of men did not register. The importance of this matter to the government is such that a prompt, thorough and country-wide search for these persons, followed by vigorous criminal prosecution, must be made. When captured these evaders will be registered by their local boards and assigned numbers. They will then be subject to the present call for the first army."

## LINER RAMS STEAMER, NO FATALITIES OCCUR

An Atlantic Port.—Not a fatality occurred when the big liner City of Panama rammed the steamer Saratoga, tearing a gaping hole in the hull of the latter vessel. The captain of the Panama kept the bow of his vessel in the wound on the Saratoga, until the hundreds on board had been rescued by other vessels, which hurried to the scene in answer to the distressed liner's signals.

## U. S. EXPERTS SAY SAVE THE CABBAGE

Washington.—The rainy spell has resulted in such an enormous cabbage crop that the department of agriculture issued an appeal for the making of sauerkraut in large quantities in the interest of conservation.

The department's reports indicate that cabbages have come into the great market centers in the last few days in unprecedented lots, and that thousands of heads are about to rot in cars and on wharves.

"The government's food experts say sauerkraut can be made with little labor, from fresh cabbage, producing a food indorsed as healthful and appetizing."

'Men' Prove to Be Women. Toledo, Ohio.—Officials of the Toledo Railways & Light Co. discovered two Mexican women employed as laborers on their new power house on the East Side.

The sex of the women was suspected when they called for their weekly wages. They were questioned and admitted the fraud. The women have been working side by side with other laborers in excavating work two weeks. They said they had been in this country two months. The women were discharged.

Lacked the Wife and Kids. It is related that one day as the late Mr. Quartich, the bookseller, was standing in the porch of a hotel in the company of a great book-lover, there came to him a man carrying some books in a sack on his back.

"I know you," he said, "you are Mr. Quartich. Shake hands; both of us are book-lovers."

"They shook hands. 'Here,' he went on, 'I've got two books in my bag which I've just bought from a tanner; you shall have them for a bob each.'"

He dived into his sack and brought forth the books. Mr. Quartich looked at them and then at the man. Putting his hand into his pocket, he took out two sovereigns and handed them to him, with the remark:

"Take these home to your wife and children."

Overjoyed with such luck, the man cried:

"I've got your two sovereigns, but I haven't got any wife nor kids." And he hurried off.

## British General Captures Eleven Towns.

## Also Takes Over 3,000 Prisoners; French Grab German Trenches.

London.—Victory crowns Haig's drive.

The great assault of the entente allies for which the big guns had been preparing for three weeks in bombardments of unprecedented violence began July 31 in Flanders along a front of about 25 miles, from the region of Dixmude to south of Ypres, around Warneton.

Starting with the first peep of day, the attack, which was carried out jointly by French and British troops—the Frenchmen holding the line north of Boesinghe and the British between that town and Warneton—at the end of the day's fighting found that all the entente plans had been carried out.

The Frenchmen were holding two lines of captured, German trenches and Field Marshal Haig's men three lines, in addition to eleven towns and villages and more than 3,500 Germans made prisoner.

Washington.—Revision of the war tax bill so as to increase its total from \$1,670,000,000 to about \$2,000,000,000 mainly by additional levies on intoxicants and on personal and corporate incomes was definitely decided on by the senate finance committee.

Committee members have said they expected the bill to aggregate at least \$1,988,000,000 and not more than \$2,008,000,000.

The following new levies were definitely decided upon:

On corporation incomes, \$162,000,000.

Incomes of individuals of \$15,000 and more, \$27,600,000.

Distilled spirits, \$90,000,000.

Malt and fermented liquors (beer), \$25,000,000.

## BOND INTEREST GIVEN BOOST BY UNCLE SAM

Washington.—The first step toward financing the second installment of the Liberty loan was taken by the treasury with the offering of \$300,000,000 in treasury certificates of indebtedness.

It is the largest block of such securities yet offered, and the interest rate of 3½ per cent is ¼ of 1 per cent higher than the previous offering.

Subscriptions are to close on Aug. 7, and the certificates are payable on Nov. 15 next, indicating that the second installment of the Liberty loan will have been floated in the first half of November.

## U. S. Soldiers Killed.

Paris.—Perley Raymond Hamilton of Clinton, Mass., and James Wilson Galley of West Park, Pa., members of the American field service, were killed recently. They left headquarters with one of the new sections less than a month ago. The war cross has been awarded to three members of Section 2 of the American field service for distinguished service; John Ames, son of Prof. Ames of the Harvard law school; Raymond Whitney of Bedford, Ind., and Edward Diemer of New York city.

ORDERS MODERN BOOKKEEPING Big Chinese Bank Adopts the Method of Civilization.

American bookkeeping methods are being installed in the offices of China's Bank of Communications, Peking, the old Chinese methods having proved not entirely satisfactory. This new departure is the result of investigations made by Mr. Tsao Ju-lin, managing director of the bank, who has ordered Mr. Haleh Lin, the chief accountant, to make a clean sweep of the organization and establish a thoroughly occidental system.

The mica windows of coal stoves can easily be cleaned with a soft cloth dipped in vinegar and water. This should be done when putting the stove up.

Warm friends are more plentiful in summer than winter.

What has become of the old-fashioned stinky man who used to carry his money in a buckskin purse and say, "No, I believe not?"

## Ohio Board of Education Is Named by Governor.

## Commission to Select an Institution for Crippled Children Also Picked.

Columbus.—(Special).—Gov. Cox has just announced the personnel of two important new state bodies, the state board of education and a commission to select a site for the Ohio institution for the education of deformed and crippled children.

This is the membership of the new state board of education, provided for in the last session of the general assembly that the state might receive federal aid in vocational training under the terms of the federal vocational training bill:

W. H. Winans of Cleveland, head of the employment department of the National Carbon Co., former city commissioner of charities and corrections; Dr. J. M. Witrow of Cincinnati, educator; Dean Alfred H. Vivian of the agricultural department, Ohio State University; Superintendent of Schools W. S. Edmund of Medina, representing the teaching interests of the state; Mrs. Kent Hughes of Lima, leader among women educators, and S. J. McCune of Brilliant, general merchant in Jefferson county and familiar with rural needs.

Winans, Edmunds and McCune are announced as the Democratic members.

An important change from the former board for selecting a crippled children's hospital site is the appointment of Walter H. Brown of Toledo, former Progressive leader and now one of the Republican state advisory committee.

Brown succeeds H. H. Timken of Canton, whom Gov. Cox credits with having been a moving spirit in the progress of the work to date.

Other members of the board are John A. McDowell of Ashland, W. D. Haines of Cincinnati, the governor and state auditor.

Gets Conditional Pardon. Ernest Zimmer, Chardon farmer, who, on Jan. 17, 1914, shot and killed William Eggleston, a neighbor, was granted a conditional pardon from the Ohio state penitentiary, on condition he care for his four children and remain away from Geauga county.

This action ends countless efforts on the part of Zimmer's friends to obtain his release. Eggleston was slain by Zimmer after the former's alleged friendship for Mrs. Zimmer had aroused comment. At his trial Zimmer testified he shot in self-defense.

After Eggleston had begun firing at him when he went to protest against Mrs. Zimmer's friendship for Eggleston.

Despite these statements and the appeal to the "unwritten law," Zimmer was convicted and given a life sentence. Petitions asking for his release in 1915 were denied by the parole board, but Gov. Willis' sympathies were aroused and he directed a rehearing in October of that year.

Subsequently Mrs. Zimmer was arrested in a vice raid and her children taken from her. Mrs. Zimmer later obtained a divorce and married Albert H. Hitecock, who within a few weeks sought divorce from the woman.

Mrs. Zimmer, when her husband was tried, took the witness stand and told of clandestine meetings and various trips she had taken with the murdered man.

Recognized as Full Division. Ohio's National Guard is finally recognized as a full division. This was the statement of military men here on receipt of word that the Ohio guard is to go into training by itself, apart from the troops of any other state.

Adj. Gen. George H. Woods, who went to Washington, and who is recommended by Gov. Cox for major general, has wired his office that the Ohio guard will go alone to the concentration and training camp at Montgomery, Ala., the West Virginia guard to be sent to Hattiesburg, Miss.

Will Train Aviators. Ohio has been assigned a great educational part in the government's aviation program and has accepted the assignment.

Ohio State university will become a training center, giving preliminary instruction to five times more men at a time than heretofore.

Ohio State Fair. The Ohio state fair, Aug. 27-31, will be full of "pep and patriotism." In addition to the hundreds of exhibits and the usual midway attractions, speed events and the fancy figures to be cut in the ozone by Ruth Law, famous birdwoman, there will be features to remind the visitor this country is engaged in war.

Grant's cabin, which has for years been one of the fair's chief attractions, will celebrate its one hundredth birthday.

Manager Walborn has asked former President Taft to speak.

A Political Puzzle. "There is much about your political system," said the foreigner, "that I cannot understand."

"Go on," replied the American, "you're kidding."

"Upon my honor, I speak truly. For instance, you will not permit a rich man to run for office, and a poor man can't afford to. I don't understand it—really."

No Further Bother. "Every family is said to have a skeleton in its closet."

"That was the old way. Now you rent a closet from a reliable law firm, just as you would a safe deposit box."

Style in Motor Costume. "I want a motor costume, something in half mourning."

"Why, what?"

"My engine has a habit of going dead."
